HOUSE JOURNAL
NINTH LEGISLATIVE DAY - JANUARY 15, 2007

Speaker Sales introduced President Cooney and yielded the chair to him.

Senator Williams moved that the body resolve itself into a joint session for the purpose of receiving the address from Montana's U.S. Senator, the Honorable Jon Tester.

Senator Williams moved that President Cooney be authorized to appoint a committee of four to notify the Honorable U.S. Senator Tester that the House was in joint session and ready to receive his address. Motion carried.

President Cooney appointed Senators Hanson and Curtiss and Representatives Bergren and Edith Clark and discharged them to escort the Honorable U.S. Senator into the House Chamber.

The committee was ready to escort U.S. Senator Jon Tester into the House.

Father Lowney, Senate Chaplain, gave the invocation.

President Cooney led the assembly in the Pledge of Allegiance to the Flag.

After being presented to the members of both houses by President Cooney, Montana's U.S. Senator Jon Tester gave this speech to the House Chamber:

U.S. Senator Jon Tester Remarks to
The 60th Session of the Montana Legislature
Helena, Montana
January 15, 2007

President Cooney, Speaker Sales, esteemed members of the Montana House and Senate: thank you for allowing me the opportunity to address this joint session of the 60th Session of the Montana Legislature. It is an honor and a privilege to be able to be with so many good friends today. It also feels mighty good to be home!

For Sharla and I, Montana is, and always will be, home. While I may have a temporary address on Capitol Hill, home will always be on the farm in Big Sandy, Montana. The people of this great state have entrusted me with the awesome responsibility of representing them in the United States Senate. It is a responsibility that I accept with humility and resolve.

That a guy like me – a third-generation dry-land grain farmer from north-central Montana – would be afforded the opportunity to represent his state in the greatest deliberative body ever conceived by man is yet another illustration of the genius of our democratic system of government. And while the task before me is daunting, I know that the lessons and values I learned in Montana will serve me well as I work hard to represent Montana every day in Washington.

I ran for the United States Senate out of a fierce determination to make our federal government work again for ordinary Americans. While that notion may seem naïve to the cynical, the dispirited, and those vested in maintaining the status quo, I know in my heart that making

HOUSE JOURNAL
NINTH LEGISLATIVE DAY - JANUARY 15, 2007

government responsive to the needs of each and every one of our citizens is not just a dream, but in fact the duty of every public servant, at every level of government.

I know it can be done because it HAS been done. Right here in Montana. During my eight years working in these very halls as a State Senator from Big Sandy, I developed an abiding faith not only in the promise of our democratic ideals, but also in the real and tangible capacity of government to get things done for people. We are the people's government.

Citizen legislatures like this one truly are the incubators of democracy. They lead the way in terms of innovation, new ideas and cutting-edge policy initiatives. They lead the way in ensuring that the voice of everyday folks is heard. Those ideals and values I learned in these very halls is what I am taking to the United States Senate.

During my time in the Montana Legislature, we were able to make genuine strides in improving the lives of people who entrusted us to do their business. We were able to make the government work for the people of our state. And how were we able to achieve these great strides? It's simple. By working together to do what is best for the people of Montana.

At the end of the day, we put aside partisanship, regional and economic differences to do the right thing. We were always guided by Montana values like common sense, living within our means, extending a hand to a neighbor in need, and investing in our future.

I ask you to consider for a moment all that was accomplished during the previous session of the Montana Legislature. Working collaboratively – across the aisle and with Governor Schweitzer – we enacted numerous and concrete policy initiatives for the people of this state. As past President of the Montana Senate, I look back with pride over our collective resolve to invest in public education; to make health care more accessible and affordable; to provide real support for Montana businesses; create new opportunities for Montana's workers; and help lead the nation toward energy independence. And we were able to achieve very real and tangible results on time, with a balanced budget, and without raising taxes. Washington can learn much from what we have accomplished here in Big Sky Country.

As you go about the people's business during this current legislative session, I ask that you continue to keep in mind these lessons learned about the need for cooperation and collaboration to advance the public good. You have the opportunity to keep Montana moving on the right track. By continuing to support public education – with programs like voluntary all-day kindergarten as well as investing in our schools and university system – you can provide every Montana child with the tools and resources they need to allow them to succeed in a highly competitive global economy.

And education is a lifelong process. Continuing education and work force training are critical to growing Montana's economy, creating jobs and providing opportunities for folks to stay in Montana, raise a family and make a living.

I am confident that these values and lessons I learned, both growing up in Big Sandy and in these halls, will serve me well as your voice in the United States Senate.

In Washington, I look forward to working both closely and cooperatively with Senator Baucus, Representative Rehberg, and members of both parties to move our state and nation forward.

As I stated earlier, the Congress of the United States can learn much from what has been accomplished right here in Montana.

HOUSE JOURNAL
NINTH LEGISLATIVE DAY - JANUARY 15, 2007

Last November, the people of this great nation expressed their overwhelming dissatisfaction with “politics as usual” in our nation’s capitol. They had grown weary of the partisan excess, scandal and a Beltway culture that placed the desires of the wealthy and well connected above the needs of ordinary Americans. They wanted their government to work for them again.

Americans have never been captive to ideology or political party. They are always open to new ideas and a fresh perspective. Most of all, they just want their government to get things done.

And those elected officials who fail to learn this lesson will sooner or later be held accountable. Again, the Montana model of government is instructive.

Take the issue of ethics. Montana enjoys some of the most progressive open-government, campaign finance and lobbyist disclosure laws in the nation. And it is my sincere hope that you do nothing to draw the veil on the ability of Montanans to see what is happening in the political process.

Sadly, this transparency in government has not been the case in Washington. Scandals and questionable ethical behavior cast a dark shadow over Congress -- and frankly over everyone in public service. The people demanded we shine light on the workings of government, and we are going to give it to them. I am proud to support the most sweeping ethics reform legislation in a generation. We are working to ban gifts and travel paid for by special-interest lobbyists; require lobbyists to be more forthcoming about their activities; and stop the “revolving door” where former members of Congress walk out the door of the nation’s capitol and into the office of a big corporate law firm as millionaire lobbyists.

But comprehensive ethics reform is only a start. Numerous challenges – both foreign and domestic – face our country today. And these challenges cannot and will not be resolved by partisanship or ideology, but by working together to make government work for each and every American.

There is likely no greater domestic challenge facing our country than how we are going to fix America’s ongoing health care crisis. With more than 46 million Americans and better than 1 in 5 Montanans lacking even the most basic form of health care coverage, this crisis is severe and I know it is apparent to each and every one of you.

Again, the progress Montana has made in the area of health care coverage can be instructive as our nation goes about addressing this monumental crisis. By fully funding the Children’s Health Insurance Program, we were able to provide health insurance to tens of thousands of Montana kids. Through the Big Sky Rx Program, we made prescription drug coverage more affordable for Montana seniors and the disabled.

And through the Insure Montana program, we were able to make health insurance more affordable to Montana small businesses and their employees.

Congress can make health care affordable and accessible for every American. It is incumbent on us to provide the political will and resolve to make it happen.

Getting a handle on our skyrocketing national debt is another urgent concern and critical to our national security. In the last five years, we’ve doubled our debt to foreign interests. And here at home, we are saddling each and every American with \$30,000 in debt. Debt that will be re-paid by our children and grandchildren.

The latest catch phrase in Washington is “pay as you go.” This means you don’t spend money you

HOUSE JOURNAL
NINTH LEGISLATIVE DAY - JANUARY 15, 2007

don't have. Not exactly a revolutionary concept here in Montana, where we've been balancing the state budget every year for more than a generation. Here in Montana we know how to live within our means. It's long past time for the federal government to do the same.

In an area that encompasses both our long term economic as well as security interests, it is essential that our nation achieve – once and for all – meaningful energy independence. And the path for America's energy independence runs right through the state of Montana.

As past President of the Montana Senate, I am extremely proud of the work we did with Governor Schweitzer and members of both parties to help Montana pave the way to America's energy independence. Working together, we were able to jump-start Montana's wind energy industry, make renewables a component of Montana's energy portfolio, and provide incentives for the production of ethanol. This has been good for Montana's economy and our national security. I look forward to working in the United States Senate to expand our nation's supply of renewable and alternative energy.

The numerous threats and challenges facing our country from abroad demand a new direction from our leadership in Washington, D.C.

More than 5 years after the heinous attacks of September 11th, most of the perpetrators of those despicable acts remain at large. In the meantime, we find ourselves mired in a bloody and open-ended conflict in Iraq. After \$300 billion dollars – that's over \$2 billion dollars a week -- and the loss of more than 3,000 American lives – including 14 Montanans – we must reexamine our strategy and foreign policy priorities.

In response to the President's recent plan to send even more troops to Iraq, my colleague, and our friend, Senator Max Baucus – whose family has suffered a grievous loss in this conflict – mapped a new course. I commend Senator Baucus for his courage and stand with him, and the tens of thousands of Montanans and millions of Americans who agree we cannot afford the status quo. Max and I are firm in our resolve to chart a new foreign policy based on political and diplomatic, as well as military, options.

Today we honor the memory of Dr. Martin Luther King, Jr. A great American leader who reminded us that we are all together in this great democracy.

It is my deep and sincere hope that as this 60th session of the Montana Legislature deliberates the people's business that you always keep in mind the following: That which unites us is far greater than that which divides us.

At the end of the day, we are more than Republicans or Democrats, city or country, Native American, Hispanic, Black or White. We are, at the end of the day, all Montanans and Americans. Working together, putting the common good over individual gain, we can both achieve the promise of our democratic ideals and make government work for every Montanan and every American. Thank you, and God Bless you all.

President Cooney asked the committee to escort U.S. Senator Tester from the House Chamber.

Senator Williams moved the joint session be adjourned.

Members of the Senate retired from the House Chamber.

I'm most honored to report to this joint session of the Montana Legislature—and the people we all serve—on the Judicial Branch's accomplishments since our two branches were last

HOUSE JOURNAL
TWELFTH LEGISLATIVE DAY - JANUARY 18, 2007

officially together in 2005, and on the challenges that remain. This is the fourth time I've formally reported to you as Chief Justice of the Montana Supreme Court, and it's certainly been an interesting "ride," thanks in large part to this body's decision in 2001 to have the state assume financial responsibility for the District Courts spread across the entirety of this place we all so gratefully call home. I report with great satisfaction that the promise of state assumption is being realized, and that the Judicial Branch has entered a new era of accountability, modernization and increased responsiveness to Montana's citizens. We still need your help to meet our constituents' needs for—and constitutional guarantees to—quality and reasonably timely justice, but more on that a bit later.

Let me start by recognizing, and thanking you for, the hugely important action you took last session—under the leadership of Senator McGee and others—in creating the first-ever Montana public defender system. That system is rightly being looked to as a model by other states, and by removing responsibility for indigent defense from the Judicial Branch to the branch where it properly belongs, you also left us—thankfully—able to focus on Judicial Branch planning and activities.

This has been a biennium of enormous accomplishments and improvements in the Judicial Branch which, as you know, has approximately 400 employees across Montana, but makes up only 2.5% of the overall state general fund budget. I started preparing for today with a very lengthy list of our successes during the past biennium. I soon realized it was just too much to cover without risking my vocal cords and, much more importantly, without presuming on your time constraints. So, I've narrowed down to a few major areas. I invite you to contact either myself or our excellent administrative staff if you want to learn more or if we can assist you in your work in any appropriate way. Government works best when it works together to meet the needs of our citizens.

The Judicial Branch has focused heavily on Montana's kids these past two years, first with our emphasis on more efficient and effective management of child abuse and neglect cases. At the urging of the Judicial Branch, the Departments of Public Health and Human Services and Justice, as well as the new Office of the Public Defender, joined with us to hold the first-ever Montana summit on the protection of children this past August; its theme was "Children Can't Wait." The event brought together almost 200 people—prosecutors, defenders, social workers, volunteer CASAs (court-appointed special advocates for kids) and trial judges—to focus on improving processes for Montana children and their families involved in abuse and neglect cases. Senators Williams and Esp joined us, and we appreciated it.

The summit was a huge, action-oriented success. Real, tangible improvements on the state and local level began there, and continue through local action teams made up of all the "players" in child abuse and neglect cases, because children really can't wait. Our second children's summit—with the theme "Dear Kids, We're Getting There!"—will be held on August 22 and 23 this year, and I invite all of you to join us in this important collaborative effort. I'm glad to see from the number of bill draft requests on this subject that the Judicial Branch and the Legislature are on the same page about the importance of improving abuse and neglect proceedings. It's an area that needs the efforts of all of us—for Montana's kids.

I mentioned our wonderful CASAs as important participants in last year's summit, and I

HOUSE JOURNAL
TWELFTH LEGISLATIVE DAY - JANUARY 18, 2007

want all of you to know about the extraordinary help they provide to kids and trial courts in abuse and neglect proceedings. We need more volunteer CASAs and more CASA programs throughout the state. To that end, you have before you a modest budget proposal to expand existing programs and create new ones where they don't yet exist. Montana's kids will benefit greatly by your favorable consideration.

Another major emphasis and accomplishment relating to children has been our improvements in the Youth Courts. We have fully implemented an automated and shared case management system in all Youth Courts, resulting in availability of statistics and data about youths in the Youth Court system. We produced the first-ever "Youth Court Report Card," designed to provide information and accountability to the people of Montana. The District Court Council reallocated some existing Youth Court resources to provide more help to Youth Courts with the greatest need. We still need, however, the very minimal staffing increases for Youth Courts which are contained in our budget proposals. Again, we hope you will give these staffing increases favorable consideration.

Our last major effort involving youths and Youth Courts was to work with the Department of Corrections to modify provisions of the incredibly successful Juvenile Delinquency Intervention Program (called JDIP), in ways agreeable to both the Department and the Judicial Branch. This carefully negotiated legislation is now before you in Senator Shockley's SB 146, and we urge its passage.

The overall vision of state assumption was to allocate state resources to Montana's trial courts on a reliable and systematic basis relying on sound data. Thus, a major, two-part focus within the Judicial Branch over the last two years has been to collect actual data, on an "apples-to-apples" basis, on trial court filings and workload. The first part was the adoption of Uniform Case Filings Standards by the Supreme Court, effective January 1, 2006, after long and careful study and work by the District Court Council. For the first time ever, we will soon share with you the numbers of filings for each District Court on an equal and case-specific basis. The second major component of the data soon available to you is the result of a District Court Workload Assessment Study which explains—in real terms—how much judicial time is spent on each type of case. This careful and process-oriented study grew out of the District Court Council, and was ably led by District Court Judges McKeon, McKittrick, McLean, Curtis, Watters and Tucker, with expertise obtained from the National Center for State Courts. The detailed workload assessment study, together with the results of the uniform case filing standards, will provide an appropriate basis for your serious consideration—in the 2009 Session—of the very real need for more judges in Montana.

In the meantime, we are requesting small additions in FTEs for staffing the District Courts. These modest proposals, for which we respectfully ask your support, will enable Montana trial courts to provide better service to the people of Montana.

Judges, of course, rely heavily on highly competent and motivated employees in addressing their growing caseloads and other judicial obligations, and I can assure you that the District Courts and Youth Courts are chock full of some of the finest public employees in Montana. But we have been dogged since state assumption with large inequities in employee pay which resulted from state assumption. This problem is significant because it affects not only

HOUSE JOURNAL
TWELFTH LEGISLATIVE DAY - JANUARY 18, 2007

employee morale, but our ability to continue to hire and retain quality people to staff our courts. We have repeatedly requested your help on this issue, and we seek it again this session. It is totally unfair to subject our employees—all within one branch of government—to an inequitable pay system; it is even more unfair when, on top of intra-branch inequities, Judicial Branch employees whose work is very similar to certain Executive Branch employees, also are paid less than those employees. I urge you to support our budget proposal to finally equalize Judicial Branch employee pay, so the Judicial Branch you effectively created via state assumption can treat its employees like others in state government service.

On another matter closely related to District Court workload and staffing, one thing that became clear during the children's summit was the difficulty trial judges have in meeting the tight statutory timelines required for child abuse and neglect cases, given their heavy caseloads. The same is true with a large number of other statutes that require District Courts to give certain cases priority and meet strict timelines. I know you understand that judges need adequate time to hear, consider and decide cases. So, I respectfully request you to be mindful—as you consider changes to the child abuse and neglect, and other, statutes—that imposing stricter, and shorter, and additional, timelines may result in expectations and requirements of District Courts that simply cannot humanly be met.

Another major Judicial Branch emphasis continues to be information technology and modernization, an area in which we have made great strides. When I became Chief Justice in 2001, Montana courts were operating with what might accurately be characterized as late 1950s technology. You helped us move forward with critically needed funding in 2003 and 2005. That funding, in combination with federal dollars—which I didn't like asking for, but which were so desperately needed by our branch—allowed us to move parts of our courts to early twenty-first century technology standards. All but the tiniest Courts of Limited Jurisdiction are now served by a modern case management system called FullCourt. The Youth Courts have a shared case management system. The Clerk of the Supreme Court finally has a modern case management system which no longer relies on Word Perfect 5.1. And, importantly, both the Courts of Limited Jurisdiction and the District Courts share a central repository for court data, with catastrophic data back-up, which also allows the courts to share information with other entities such as the Department of Justice.

In addition, with the assistance of Clerks of the District Court in Missoula and Mineral counties, we have piloted a case management system that will modernize data collection at the District Court level. We must be able to install and implement that system in the other twenty-one Judicial Districts, so that—finally—all of our courts will be on the same twenty-first century technology page at the same time. On a related matter, the Montana Supreme Court has developed and soon will roll out detailed rules addressing public access to court records. Technology truly will lead to greater public access to court records and, consequently, to more transparency and accountability in our branch.

I'm very proud of what the Judicial Branch has accomplished with regard to information technology and automation in so few years and with limited resources. Our efforts in this arena have been successful because we function as a branch of government, rather than separate county-based District Courts; and we have been good and careful stewards of public dollars.

HOUSE JOURNAL
TWELFTH LEGISLATIVE DAY - JANUARY 18, 2007

For these reasons, I'm comfortable asking for your assistance in finalizing our remaining and necessary technology projects: completing the modernization of District Court case management systems; supporting video conferencing in the District Courts across Montana, with its significant time and cost savings to courts, citizens, local law enforcement and others; and obtaining additional technology-related equipment for our courtrooms. To meet these needs, I respectfully request your strong support for our one-time-only technology proposals in HB 14.

Mentioning courtroom technology needs leads me directly to District Court safety and security. Courthouses and courtrooms are where Montanans come to resolve their legal disputes, and surely Montanans have a right to safe and relatively secure courts. During this past interim, thanks to a partnership with MACO, the Sheriff and Peace Officers' Association and the Department of Justice, we identified many instances where Montana's courthouses and courtrooms are not providing the level of security and safety needed for citizens, staff and judges. Please assist all of our citizens, the courts and the counties in addressing this problem by supporting our modest request for one-time-only safety and security funds.

I have spoken with some pride about our recent accomplishments in improving court systems and services for the people of Montana in the trial courts. I want to recognize and thank each and every one of our District Court Judges and Judges of the Courts of Limited Jurisdiction for their dedicated and high-quality service to the people of Montana. I also simply must recognize and thank our outstanding Judicial Branch employees for their commitment to public service and to Montana's citizens.

Last, but certainly not least, I respectfully call your attention to the Montana Supreme Court and its substantial need for additional resources. For those of you who remember, we were on the brink of an intermediate appellate court in Montana at the time you passed state assumption in 2001. That also was the last year in which direct staff for the Supreme Court was added—three law clerks. Since that time, I have given priority to the resource needs of the District Courts, their staffing, and other state assumption matters which were not adequately funded at the outset of state assumption. It was the right thing to do; but the Supreme Court has resource needs as well.

We are one of the most productive high courts in the nation, and it's a good thing. From 1991 through 1995, our caseload increased 2%; from 1996 through 2000, an increase of 20%; from 2001 through 2005, an 11.2% increase. Last year we resolved 736 cases, 352 of them by written opinion. In contrast, the U.S. Supreme Court issues in the neighborhood of 80 to 85 opinions a year.

Your Supreme Court also has spent many hundreds of hours in revising various court rules—including the critically important water court claim examination and adjudication rules needed to “ramp up” the adjudication of water rights after the 2005 Session. Other Supreme Court administrative-related duties also have increased since state assumption. I am proud of our Supreme Court and its commitment to both quality and timely justice for Montanans, at a time of more complex cases, higher caseloads and increased administrative obligations. I believe you and all Montanans rightfully can be proud, too.

On behalf of the people of Montana whose cases too often wait too long for the “end of the legal road,” however, I simply must urge you to provide much-needed additional staff for the

HOUSE JOURNAL
TWELFTH LEGISLATIVE DAY - JANUARY 18, 2007

Supreme Court. We are requesting 2.5 additional FTE for direct Court staff. 1.5 of those FTE are for a new, in-house appellate mediation program that could resolve a significant portion of our caseload. The other FTE is for a pro se law clerk to significantly decrease the amount of time Justices currently must spend on inmate petitions and other matters involving persons not represented by counsel. Please help us do a better and more timely job for the people of Montana by approving these proposals.

Coming around to complete the circle, I've outlined for you just some of our most significant accomplishments in improving the Judicial Branch in the last two years. Our justices, judges and staff inspire me every day with their dedication and willingness to go the extra miles for our citizens. Together, and with your help, we have made significant improvements. Together, and with your help, we can and will do more.

I recall with pleasure a statement on the floor of this chamber during the last session. A Representative said, "You can't put a price on justice" with regard to adding a judge, staff and operating costs in his county. I ask you all to remember that while—in the real world—it is necessary to put a "cost" on justice, justice is best served through a carefully managed statewide Judicial Branch that has at least minimally adequate resources to meet the needs of all the people of Montana.

Our overall Judicial Branch goals are to ensure that every Montanan can access our courts, so some day we will achieve truly equal justice, and to ensure that the administration of justice is fair, impartial and accountable to the people of Montana we serve. We strive to meet these goals every day.

I'd like to close my formal remarks to this Legislature the same way I did two years ago. I know that—like our branch—all of you aspire to goals on behalf of your constituents. As elected state level officials, we are all committed to serving our constituents with dignity and giving them the best that is in us. Let's remember together that we are part of the best system of government the world has ever seen—three separate branches with built-in checks and balances, a system that is the envy of people around the world. Let's remember together the sacrifices made to protect our form of government and individual freedoms. If we keep these basic ideas close to our minds and hearts, these will be our proudest moments—and we will have faithfully discharged our duties to the people we all serve.

Please know that the Judicial Branch recognizes your critical role in government and the sacrifices you make in being here; we applaud the work you do. We look forward to working with you in the future and, on behalf on Montana's Justices, Judges and staff, I wish you a productive and successful Sixtieth Legislative Session. Thank you.

The committee escorted Chief Justice Gray from the House Chamber.

Senator Williams moved the joint session be adjourned.

Members of the Senate retired from the House Chamber.

STATE OF THE STATE ADDRESS
GOVERNOR BRIAN SCHWEITZER
JANUARY 24, 2007, 7:00 PM

HOUSE JOURNAL
SIXTEENTH LEGISLATIVE DAY - JANUARY 24, 2007

Thank you. Mr. President, Mr. Speaker, Fellow Montanans, it is an honor to address this assembly of the 60th Legislature for the State of Montana.

Yesterday Nancy and I celebrated our 25th anniversary. I've learned a lot of lessons over the years on becoming a better husband. For example, in anniversaries gone by I would look around the house to find things that maybe we could improve around the house. One year I bought a vacuum cleaner. Big mistake. This year we celebrated her birthday in November, I looked around the house to see some things that Nancy didn't have and maybe she would like to have. And I noticed that she was missing something pretty important in her life. And so I bought her a Smith and Wesson .38 with a laser sight. When she opened the gift on her birthday she was very surprised, and I've learned a lesson: I won't buy her another pistol. So this year for our 25th wedding anniversary once again I had to look around the house and finally I decided I should buy something very uniquely Montanan and so I bought her a palladium ring, the palladium coming from Stillwater Mining and from my home country in the Judith Basin, a Yogo sapphire. Show them your ring.

My Mom and Dad are here, my daughter Katrina. Mom, Dad, thank you for believing, thank you for pushing, thank you for instilling that fight. And my good friend, John Bohlinger, my friend, my confidante. John, two and a half years ago we took a proposition to the people of Montana, we simply said are you ready to accept a Republican and a Democrat working together in the Executive Branch? Enough people agreed with us that they gave us the opportunity. During the course of the last two years I've been to all 56 counties and I'm here to report to you that the people of Montana want Democrats and Republicans to work together. Thank you.

Two years ago, the last time we gathered in this Chamber, we honored Bette Bohlinger who was fighting the courageous fight against leukemia in a hospital in Billings. We honor Bette. She lost that battle but she'll always be in our hearts as she is here today. We love you, Bette.

We lost others during the course of the last two years. Frank Morrison, Governor Tom Judge and Senator Pat Goodover, the Republican Senator from Great Falls who without his action we would still not be able to turn right on red. And during the last two years we've lost more than a dozen courageous Montana heroes in Iraq. Let's take a moment to remember them all.

Ten score and two years ago the first European American expedition came to Montana, and when Lewis and Clark entered Montana they began to describe this wondrous place, the wide rivers, the endless prairies, the beautiful mountains. They described the wildlife, the fisheries and they described the first Montanans that they encountered, the Crows, the Assiniboine, the Blackfeet and the Salish. They found that the first Montanans, these people of the Great Plains who had lived sustainably on this land for nearly 10,000 years had a notion of leadership. Their leaders, their elders had a notion about protecting the future generations. Every decision made by elders considers the consequences on the seventh generation.

As we consider the options that we have before us, let us not forget the future generations and the generations that will follow them. The first European settlers who came to this place we now call Montana, the miners, the loggers and the homesteaders like my four grandparents, they came to this place with really nothing more than the clothes on their back, high hopes and faith in God. And they considered the future generations. My grandparents and your grandparents who came to this place, they never believed that they individually would ever serve in a Chamber like this, they never believed that they would be the leaders of this state, the bankers, the leaders of Congress. They wanted the next generation to have those opportunities. They fought for the next generation and the generation that followed. They believed in a sustainable Montana as well. Let us remember we will be held responsible by the generations that follow us but we will be accountable to those who preceded us.

It was Teddy Roosevelt who in my opinion was the greatest President in the history of this country and, yes, he was a Republican. Teddy Roosevelt said, "We must treat each man on his worth and the merits as a man. We must see that each is given a square deal." Teddy Roosevelt was correct a hundred years ago and it's Teddy Roosevelt's ideals that have built what we call the Montana Square Deal.

The last time we gathered together I proclaimed to you Montana is open for business. And, boy, are we open for business. During the last 24 months we've created more than 24,000 jobs, more than 1,000 jobs per month. Our unemployment is the lowest in history, 2.8 %. There are more people working in Montana today than any time in the history of Montana. And for the first time in the history of Montana the wages in Montana are increasing at a faster rate than the average of the rest of the country. In fact, only two other states have wages increasing faster than Montana.

HOUSE JOURNAL
SIXTEENTH LEGISLATIVE DAY - JANUARY 24, 2007

Montana is open for business and on the move.

I've been on the move too. I've been to all 56 counties, been to the court houses and I've been outside of Montana. I've made some business trips outside of Montana. I went to Alberta a couple of times, met with some folks up there, and we attracted a company called Avmax to come to Great Falls. This company is in the business of repairing aircraft. They brought 98 jobs to Great Falls. We met with a transmission company who recently announced that they want to build a \$2 billion transmission line in Montana, called the Northern Lights Project. And another transmission company has announced that they would like to build a \$150 million transmission line from Lethbridge to Great Falls totally dedicated to clean green wind power.

I made a couple trips out to Seattle, met with some folks that used to be living in Montana, the Robbins family which were a great family from Butte, had started a wonderful business in Seattle, a foundry where they are employing hundreds of people. We talked to them about the opportunities of coming back to Butte and we provided to them the tools that they needed to be successful and now the Robbins family is back in Butte and employing 40 people. Welcome home.

I made a couple of trips to Denver and with the help of Senator Max Baucus we were able to land Direct TV and 700 new jobs in Missoula. We've been paying attention to Montana, we know collectively that Montana is on the move, we know that we're in a good economic place right now. But I'm here to tell you that Wall Street has also been paying attention. In fact, last week Budget Director Ewer and myself were on a conference call with Moody Investor Services and we told them about the position that we were in Montana and we described to them our budget and the amount of savings that we have included in this budget. And two days ago I read in a financial newspaper that Moody's has upgraded Montana's bond rating for the first time in 26 years.

The most reported news in Montana during the last three months is that Montana has a \$1 billion surplus. All of you legislators know where the \$1 billion are, but for the folks back home you need to understand that we don't actually have the billion dollars yet. This is a prediction, this is a projection that if the wheat crop comes in for the next couple of years and the price of cattle remains high, if the rain comes on time, if the price of platinum and palladium and copper and gold stay high, if the stock market continues to grow, if the oil and gas prices stay high and Montana continues to develop our natural resources, at the end of two and a half years we may indeed have \$988 million more than we had in the last biennium.

So a Montana family, a Montana working family if their boss came to them and they said, you know, I think we're going to grow this business and if we grow it at the rate that I think we will, at the end of a two-year period I'll give you a \$1,000 bonus. Now how many families in Montana would rush home and say let's blow it, let's spend it? Some would. Some would put a down payment on a snowmobile, some would buy a pickup, others would buy a pistol for their wife. But still other families would say, no, we better save some of that money. Other families would say, how about if we put some in health care, we'll help our children with education, we'll put some money away for a college fund and we'll make our home a little more secure. Still others would say, we have some maintenance that we must do on our home, we have a leak in the roof above the garage and the city's been after us on that concrete out in front of our house for years, we'll do those long-term maintenance projects. That's what most families would do in Montana, and we have proposed a budget that's exactly like those families and small businesses would do across Montana.

For every dollar spent, a dollar saved. We're proposing to spend roughly \$400 million in ongoing projects. Roughly \$400 million in tax cuts and savings accounts and roughly \$200 million in long term construction projects. Let's talk about what those plans are. The \$400 million that we're spending ongoing, we're spending it for things that the state of Montana and most states spend their money on: education, medication and incarceration. Let's talk about education first. We're putting more money in K12, we're putting more money in higher education, in fact we've proposed to the Board of Regents that if we put \$50 million new money in higher education, they have agreed – we have a gentleman's handshake – that they will not increase tuition for the next two years, and that would be the first two years in 20 years that tuition is not increased. We'll put more money in K12 so we can attract teachers and keep them. In fact, we have proposed that when a young teacher graduates from college in Montana and is thousands of dollars in debt, if they will agree to teach in some of our rural schools across Montana, we will forgive a portion of their debt every year that they teach in Montana for up to four years and so that young teacher who has a \$20,000 debt and agrees to teach with Carol Lambert in Broadus, we will forgive \$3,000 of that debt for four consecutive years and Broadus will have a bright new young teacher.

HOUSE JOURNAL
SIXTEENTH LEGISLATIVE DAY - JANUARY 24, 2007

We've asked you to put more money in the Best and Brightest Scholarship Program so that middle class families like the one that I came from whose parents didn't even graduate from high school but had a dream of sending the next generation to college, let's help these kids with scholarships. We've called it the Best and Brightest Scholarship Program and we believe that we can put more money out there so more kids will graduate from Montana colleges and universities.

And Linda McCulloch has been after me for years for full-time kindergarten. For the last seven years, Linda's been telling me the benefits of full-time kindergarten. I tell you when I ran for governor I didn't say to the people of Montana I have an idea, full-time kindergartens. Actually I said to the people of Montana we need to train Montana's work force for the jobs that we're creating tomorrow in Montana. I knew that we needed to invest in higher education, in particular our two-year programs. I knew that we needed to invest in K12, but Linda continued to say, Brian, the best investment is full-time kindergarten.

Well, I've learned a little bit over the course of the last couple of years, Linda. I was at a Western Governors Association conference and we had three specialists who are renowned around the world. They are all published authors, people who had studied the education systems in Finland, Singapore and Germany and compared them to the states in the United States. They told us what we were doing right, they told us what we were doing wrong. And when they completed their discussion, one of them being an expert in K12, one of them was an expert in two-year colleges and one of them was an expert in universities, I had a question. I said to them, I'm going to make each of you governor of Montana for a day and I'm only going to give you one additional dollar for education. Where would you spend it? You're the experts.

So first the K12 expert considered it for a moment and she said if I only had one additional dollar I would put it in early education. Well, that's interesting. How about you, I said to the expert in two-year colleges, where would you put one extra dollar if you were governor for a day? He considered it and said if I only had one extra dollar I'd put it in full-time kindergarten. It surprised me. So I turned to the university specialist and I said where would you put the extra buck? And that person too said I would put it in early education.

And then later at a conference that we held here in Montana, sponsored by the National Governor's Association and Montana businesses – it was a conference on early education – a fellow by the name of Art Rolnick, an economist with the Federal Reserve in Minneapolis, spoke to us and he had studied education for some period of time. Mr. Rolnick said to us that there was a study conducted about 25 years ago, talked about a lot of studies but he focused on a special study. This one looked at families. One sibling was given the opportunity of full-time kindergarten, another did not. And then they followed the progress of these children and they found that the one who had full-time kindergarten was, imagine this, more successful in the first grade but also more successful in eighth grade, more likely to graduate from high school, less likely to be involved in correction systems, more likely to graduate from university, and at the end of 25 years had a higher salary than the ones who didn't have full-time kindergarten. Art Rolnick said to us that he's applied some economic measures and he says the investment that you make today in early education pays up to a 16 % dividend until that child goes to the work force. That's the best education that we can provide in Montana. Thank you, Linda McCulloch, for being a great leader.

Montana's population put in corrections is increasing at a faster rate than almost any other state. We have one of the highest percentages of our population involved in the corrections system. 93% of the people in our correction system today are there in part because of drug and alcohol addiction and more than 50% of a mental illness. And yet our correction system continues to warehouse people. We have sentencing in the hinterland, we send them to Deer Lodge or Billings. They spend their time, they go home, they commit another crime and they end up back in the correction system and we have not treated the underlying cause, the drug or alcohol addiction, the mental illness. So we are challenging our corrections and health and human services to work together so that we are actually treating the root cause of these offenders because if we can treat the root cause, the mental illness, the drug or alcohol addiction, we will have more people in our communities more productive and fewer of these people in our correction system that has become a bloated part of our budget.

Thank you, John Morrison, for helping us when we started the Insure Montana Program. We have a proposal during this legislative session to put enough money so that we can add a thousand more employees in small businesses to the Insure Montana Program and more families in Montana will be insured. We need to increase our home based services and our community based services so that we can provide these Medicaid dollars closer to home so that people

HOUSE JOURNAL
SIXTEENTH LEGISLATIVE DAY - JANUARY 24, 2007

that we're treating we can treat with more dignity in their own community, in their own home and it's more efficient.

I thank Senator Dan Weinberg for proposing Senate Bill 22 to increase the child health insurance program of a compensation level from 150% of the federal poverty rate to 175%. That will increase by 3,000 children that we can insure in Montana. Thank you, Senator Weinberg.

There it is. You've heard pretty much how we're proposing to spend the \$400 million. Now let's talk about how we're going to save and how we'll have tax cuts of 400 million. Let start with tax cuts. We're proposing to send a \$400 check to 250,000 homeowners in Montana. Why pick homeowners first? Because as you know during the last 15 years as other classes of property taxes have been reduced, it's forced local school districts to raise their mill levies and so homeowners have had their tax bills go up as much as 50% to 75%. It is time for Montana working families to get a break and that's what that is about. That's politics.

So there is somebody out there in Montana right now saying what about me, I'm a small business person, how come I'm not getting a tax break? Well, hold on to your hat, cowboy, because you are. We're proposing other tax breaks. We're proposing to raise the level of the business equipment tax exemption from \$20,000 to \$150,000. Think about this, if you're a farmer or a rancher like me or a plumbing contractor, electrical contractor, concrete contractor and during the last 10 years you bought let's say six, seven hundred thousand dollars worth of business equipment, you've depreciated that equipment and now the value of that equipment is \$149,999. We're proposing to eliminate your business equipment tax and save you \$4,500. Pretty good for the small businessman in Montana.

But we're not done. As you know, we've proposed to suspend the water tax, the same business person may well have a spring and two wells paying 20 bucks on each one, 20 times three is 60 bucks. And they also own a home, so let's add it up. This small businessman in Montana gets \$4,500 plus \$400 for the home plus 60 bucks for water, the whole tax cut comes to 4960 bucks. That's real tax relief for real small businessmen in Montana.

So let's get talking about the savings, the best part of our budget. We are proposing an ending fund balance of \$100 million, effectively moving \$100 million from Montana's checking account to Montana's savings account. And thanks to the efforts of Senator Rick Laible we're proposing the Big Sky Savings Account and for the first time in Montana's history not only will we have a savings account but we've got \$80 million bucks to put in it. Thank you, Senator Laible.

There is more. So we told you that we're going to move \$100 million from our checking account to our savings account. We told you that we're going to have a money market account and it's the Big Sky Savings Account. Well, there is another one you can call the 30-year bond. As you recall in 1991, in 2001 we changed the compensation level that state employees receive on their pension plan. And when I arrived on this job, I was told by the economist we had about a \$1 billion plus fiscal imbalance in our pension plan. So in the last legislative session, thank you very much, you put \$125 million toward paying down this problem. This time we're proposing another \$100 million and we're proposing a big change for any new state employee. This doesn't affect a single employee who is currently working for the state of Montana. Only new employees will be paying in at a higher rate so that they, when they retire, won't have a fiscal imbalance in the pension plan. This alone adds a \$400 million stability to our pension plan, we've created a balance of \$625 million towards a billion dollar deficit in just two years. I guess in the next 20 years we'll do more.

And as you legislators know, when you go door to door and you're running for office and running for reelection, whether you're in Butte or Billings or Bozeman or even Great Falls, as you're visiting with the folks they say, you know, we really ought to have an addition at the College of Technology, we really ought to have a bridge across this river, we really ought to have a new roof on the civic center that we have here in our town. So dutifully, you're the elected person, you come down to this body and you say we really need to have this project in our town. But then you find out we really don't have the money to pay for it, so we've had long-term building funds. It's called bonding. Now bonding simply means that we borrow money from somebody in the future to pay for our priorities today, right? But in our budgets we have no bonding, we borrow no money, we pay as we go. This is the most conservative and fiscally responsible budget in the history of the state.

The things we're going to pay for with cash, we're going to create a super computer system that will be one of the largest in America at Montana Tech. We're going to invest \$26 million in the chemistry building in Gaines Hall in Montana State University. We're going to put money in to the crime lab and we have deferred maintenance all across this state, we have over \$130 million that we will pay cash for that previous legislatures have bonded. That's a fiscally responsible thing to do.

HOUSE JOURNAL
SIXTEENTH LEGISLATIVE DAY - JANUARY 24, 2007

We need a little help from you. Dan Bucks who is my Revenue Director has been on a mission because I told him to go on one. I said to him, Dan, I want you to close loopholes. I want you to find ways that Montana can raise money without raising taxes. And he's been looking around at Montana's tax code and he's found some loopholes that people who are not residents of Montana are using. They are making money in Montana but not paying taxes in Montana. They are competing with Montana businesses by not paying taxes when Montana businesses do pay taxes. We have given them a competitive advantage over Montana businesses, and Dan Bucks has proposed some rule changes to this legislature that will raise \$60 million from non-Montanans who are making money in Montana. I want you to help Dan Bucks collect that \$60 million.

Last night many of us watched the State of the Union address. We heard President Bush tell us about our circumstance and our addiction to foreign oil. He had some solutions that had to do with creating more energy and conservation measures here in the United States. But it was President Jimmy Carter 28 years ago who said, "Energy will be the immediate test of our ability to unite this nation and the standard of which we rally. On the battlefield of energy we can win for our nation and seize control again our common destiny." He said those words when we only imported 42% of our oil, and today we import 65% of our oil from people all over the world. During the last two years in Montana we have completed and announced an amazing array of energy programs. The Centennial Electric plant in Butte, the coal-fired electric plants, the Judith Gap Wind Farm, the Great Falls Wind Farm and Conoco Phillips has announced they're going to spend \$400 million to update their refinery in Billings. The Northern Light Transmission Line, the Alberta Tie transmission line and Peabody Coal, the largest coal company in America, has announced that they would like to build a coal liquefaction plant for \$1 billion. And Arch Coal Company, the second largest coal company in America, has announced that they will be part of a consortium that builds a \$1 billion coal gasification and liquefaction plant in Senator Gebhardt and Representative Olson's home town of Roundup. Every one of these projects are larger than the collective energy development in the previous 20 years in Montana. Montana, we're on the move.

Montana can and we will lead in clean and green energy for this entire country with our wind power, our biofuels, our solar potential. And in Montana we're developing oil, we're one of only two states that increased our oil production during the last year and we'll increase it again next year. We're increasing our gas production. It was California who changed their law, who said that they will no longer buy electricity, they will no longer buy electricity from anyone who increases the amount of carbon dioxide in the atmosphere. They are the 900 pound gorilla in the western United States for purchasing electricity. If we're going to sell in to the California market, we will have to sell using wind power and coal gasification with sequestration. California will not accept and Montana should not put carbon dioxide in our atmosphere.

Last night President Bush has joined in the climate change debate. Several months ago Richard Opper came to me and said, Brian, we ought to have a climate change advisory council. And there are two members of this body, Representative Sue Dickenson from Great Falls is a member of that advisory council and Senator Gary Perry is also part of that advisory council. Thank you for being ahead of your time.

We are proposing historic and dramatic property tax decreases for companies that build clean and green in Montana. For transmission lines, for pipelines, for pipelines carrying carbon dioxides, for coal gasification plants when they sequester the carbon dioxide, for manufacturing the biofuels and wind power, for fuel cell development using Montana Stillwater palladium and last but not least electric car manufacturing. Montana is on the move. Republican Governor Joe Dixon said our greatest national heritage is nature itself. And when combined with our national parks it becomes of unlimited value. He was joined by Mr. President's grandfather, Governor Frank Cooney, dedicating the building of the Going to the Sun Highway when he said, "There is no Highway which we'll get to see as the lover of grandeur of the Creator's handiwork, more thrills, more genuine satisfaction deep in his being than a trip over this road." Democrats, Republicans have agreed for a hundred years that the greatest treasure of the Treasure State is our wild places, our rivers, our mountains, our wildlife, our parks and our ability to access our public lands. That's something Democrats and Republicans agree on.

And working families from one corner of this state to the other access our public lands and in many cases our parks, and our places for accessing our rivers are becoming full. And at the same time the price of real estate is increasing at a very rapid rate in Montana. That's why we are proposing a \$15 million purchase of more access sites on our rivers and streams, more state parks, and this will be a legacy that you can send to the seventh generation of youth. Montana is unique in the Rocky Mountains in that the citizens of Montana have a constitutional right to access our

streams. Senator Lane Larson, thank you for protecting our right to access our streams. And, Legislature, work together, maintain our access for future generations.

On my first full day on this job I rode a helicopter to Troy to my first military funeral. I've been to many more since, and yesterday I was at another one. I was with the families when they sent their loved ones to Iraq. I was in Ft. Lewis and Belgrade and Helena when they came home from Iraq. I was with the families when we sent our heroes to New Orleans and I visited our heroes in New Orleans. I visited our heroes in Iraq, Kuwait and Afghanistan. And I know this, that when our men and women serve overseas, there is someone who has a greater sacrifice at the end of the day, their families, their families back home. So that's why I thank Julie French who has proposed House Bill 179 that will make a one-time payment to these families when we call their loved one to active service. Thank you for remembering the families, Julie.

As you know, we will be together here for about 90 days. We've already started to move education and tax cut bills, over to the House, the House is doing some other work. Please do not delay the process, move the process along. The 90 days will come and go very quickly because the people back home will judge us by our contributions, not for the late nights, not for the early mornings, not for the speeches delivered. Do not allow the partisan among us to destroy the good intentions of the majority of Montana.

And as Matthew 12:33 reminds us, "for a tree will be known by its fruits." Members of the 60th Legislature, let our efforts bear fruit for this generation and the generations to follow.

God bless your families, God bless Montana and God bless America.

Following the State of the State address by Governor Schweitzer, President Cooney called upon the Most Reverend George Leo Thomas who gave the Benediction.

Senate Majority Leader Williams moved that the joint session of the 60th Legislature, convened to receive the address from Governor Schweitzer, be adjourned.

Majority Leader Lange moved that the House adjourn until 1:00 p.m., Friday, January 26, 2007. Motion carried.

"41-3-445. Permanency hearing. (1) (a) (i) Subject to subsection (1)(b), a permanency hearing must be held by the court or, subject to the approval of the court and absent an objection by a party to the proceeding, by the foster care review committee, as provided in 41-3-115, or the citizen review board, as provided in 41-3-1010:

(A) within 30 days of a determination that reasonable efforts to provide preservation or reunification services are not necessary under 41-3-423, 41-3-438(6), or 41-3-442(1); or

(B) no later than 12 months after the initial court finding that the child has been subjected to abuse or neglect or 12 months after the child's first 60 days of removal from the home, whichever comes first.

(ii) Within 12 months of a hearing under subsection (1)(a)(i)(B) and every 12 months thereafter until the child is permanently placed in either an adoptive or a guardianship placement, the court or the court-approved entity holding the permanency hearing shall conduct a hearing and the court shall issue a finding as to whether the department has made reasonable efforts to finalize the permanency plan for the child.

(b) A permanency hearing is not required if the proceeding has been dismissed, the child was not removed from the home, the child has been returned to the child's parent or guardian, or the child has been legally adopted or appointed a legal guardian.

(c) The permanency hearing may be combined with a hearing that is required in other sections of this part or with a review held pursuant to 41-3-115 or 41-3-1010 if held within the applicable time limits. If a permanency hearing is combined with another hearing or a review, the requirements of the court related to the disposition of the other hearing or review must be met in addition to the requirements of this section.

(d) The court-approved entity conducting the permanency hearing may elect to hold joint or separate reviews for groups of siblings, but the court shall issue specific findings for each child.

(2) At least 3 working days prior to the permanency hearing, the department shall submit a report regarding the child to the entity that will be conducting the hearing for review. The report must address the department's efforts to effectuate the permanency plan for the child, address the options for the child's permanent placement, examine the reasons for excluding higher priority options, and set forth the proposed plan to carry out the placement decision, including specific times for achieving the plan.

(3) At least 3 working days prior to the permanency hearing, the guardian ad litem or an attorney or advocate for a parent or guardian may submit an informational report to the entity that will be conducting the hearing for review.

(4) In a permanency hearing, the court or other entity conducting the hearing shall consult, in an age-appropriate manner, with the child regarding the proposed permanency or transition plan for the child.

~~(4)~~(5) (a) The court's order must be issued within 20 days after the permanency hearing if the hearing was conducted by the court. If a member of the child's extended family, including an adult sibling, grandparent, great-grandparent, aunt, or uncle, has requested that custody be awarded to that family member or that a prior grant of temporary custody with that family member be made permanent, the department shall investigate and determine if awarding custody to that family member is in the best interests of the child. The department shall provide the reasons for any denial to the court. If the court accepts the department's custody recommendation, the court shall inform any denied family member of the reasons for the denial to the extent that confidentiality laws allow. The court shall include the reasons for denial in the court order if the family member who is denied custody requests it to be included.

SEVENTEENTH LEGISLATIVE DAY - JANUARY 25, 2007

(b) If an entity other than the court conducts the hearing, the entity shall keep minutes of the hearing and the minutes and written recommendations must be provided to the court within 20 days of the hearing.

(c) If an entity other than the court conducts the hearing and the court concurs with the recommendations, the court may adopt the recommendations as findings with no additional hearing required. In this case, the court shall issue written findings within 10 days of receipt of the written recommendations.

~~(5)~~(6) The court shall approve a specific permanency plan for the child and make written findings on:

- (a) whether the permanency plan is in the best interests of the child;
- (b) whether the department has made reasonable efforts to finalize the plan; and
- (c) other necessary steps that the department is required to take to effectuate the terms of the plan.

~~(6)~~(7) In its discretion, the court may enter any other order that it determines to be in the best interests of the child that does not conflict with the options provided in subsection ~~(7)~~ (8) and that does not require an expenditure of money by the department unless the court finds after notice and a hearing that the expenditures are reasonable and that resources are available for payment. The department is the payor of last resort after all family, insurance, and other resources have been examined.

~~(7)~~(8) Permanency options include:

- (a) reunification of the child with the child's parent or guardian;
- (b) adoption;
- (c) appointment of a guardian pursuant to 41-3-444; or
- (d) long-term custody if the child is in a planned permanent living arrangement and if it is established by a preponderance of the evidence, which is reflected in specific findings by the court, that:

(i) the child is being cared for by a fit and willing relative;

(ii) the child has an emotional or mental handicap that is so severe that the child cannot function in a family setting and the best interests of the child are served by placement in a residential or group setting;

(iii) the child is at least 16 years of age and is participating in an independent living program and that termination of parental rights is not in the best interests of the child;

(iv) the child's parent is incarcerated and circumstances, including placement of the child and continued, frequent contact with the parent, indicate that it would not be in the best interests of the child to terminate parental rights of that parent; or

(v) the child meets the following criteria:

(A) the child has been adjudicated a youth in need of care;

(B) the department has made reasonable efforts to reunite the parent and child, further efforts by the department would likely be unproductive, and reunification of the child with the parent or guardian would be contrary to the best interests of the child;

(C) there is a judicial finding that other more permanent placement options for the child have been considered and found to be inappropriate or not to be in the best interests of the child; and

(D) the child has been in a placement in which the foster parent or relative has committed to the long-term care and to a relationship with the child, and it is in the best interests of the child to remain in that placement.

~~(8)~~(9) The court may terminate a planned permanent living arrangement upon petition of the birth parents or the department if the court finds that the circumstances of the child or family have substantially changed and the best interests of the child are no longer being served.""

The notice must specify the provision of this part or the rule alleged to be violated and the facts alleged to constitute a violation and may include an order to take necessary corrective action within a reasonable period of time stated in the order. All capital stock purchased or acquired must be sold for the best price obtainable by the bank within 1 year after purchase or acquisition, or if the stock is unmarketable, it must be charged off as an investment loss, which is equivalent to the stock's sale. 2007 State of Education Address
State Superintendent Linda McCulloch
February 9, 2007

Good afternoon. I'm so very pleased to be here with you today.

Thank you, President Cooney, Speaker Sales, Senator Williams, Senator Stapleton, and Representative Parker for

HOUSE JOURNAL
TWENTY-NINTH LEGISLATIVE DAY - FEBRUARY 9, 2007

bringing us together to focus on Montana's children and their future. Thank you, Rev. Harper for your good words.

I'd also like to recognize my colleagues and friends in the Executive and Judicial branches of Montana Government, Clerk of the Supreme Court, the Public Service Commissioner, the Board of Public Education and the First Lady of Montana, Nancy Schweitzer.

And a very special thank you to my husband Bill for being here with me and supporting my dedication to Montana's kids.

I would like to take a moment to thank some folks who you don't see everyday in our schools, but who spend every single day working to make our schools even better. They are my co-workers, my friends at the Office of Public Instruction. These are the folks who don't receive the first grade hugs, but really deserve them. Please help me say thanks to my deputy, Bud Williams and all the good hard-working folks at the Office of Public Instruction.

I begin my State of Education Address with sincere words of thanks for the thousands of committed teachers, administrators, school staff and trustees. You work tirelessly, helping Montana's children learn and prepare for their futures. Simply put, you change lives.

Would all educators, school staff or trustees in the audience, both on the floor and in the gallery, please stand so we may recognize you? From all of us here, and from all Montanans, thank you!

I'd like to specifically thank the students who are watching this address live, using video streaming technology or local access television. One of those schools is Havre High School. Please join me in greeting Mr. John Ita's U.S. Government Class and Mr. Jim Magera's Local History and American Indian Culture classes.

This is the fourth time I have come to share with you my thoughts on the State of Education in Montana. It will also be my last address to this joint body as State Superintendent.

How time flies. You can't help but be a little reflective on where we've come from as Montanans and about our hopes for the future.

I thought it would be interesting to see how the Superintendent of Public Instruction saw the State of Education a hundred years ago. In 1906 the State of Education came in the form of a 500 page report. What I found was quite startling and more than a little disturbing. The Superintendent of Public Instruction in 1906 was a man. I had always been led to believe that one of the more sensible Montana traditions has always been electing women as State Superintendent. Of course in 1906 women did not, yet, have the right to vote.

Then State Superintendent W.E. Harmon reported, "There are in Montana many good schools where good salaries are paid to well prepared, competent teachers. The school houses are well built and well equipped for the best work. The school grounds are sightly and the school is the pride of the community."

Superintendent Harmon understood that public education demands that we can't stand still. He knew that a growing Montana needed a public school system that could prepare our students for the demands of a constantly changing economy.

Superintendent Harmon saw the connection between the quality of the education we could provide our children depended on the quality of the teacher in the classroom. He noted that "better trained, more experienced and more highly educated teachers" were in high demand. He argued, that in order to keep the best teachers, salaries need to be competitive. Sound familiar?

Within Superintendent Harmon's report was an observation that gets to why public education has been so successful

HOUSE JOURNAL
TWENTY-NINTH LEGISLATIVE DAY - FEBRUARY 9, 2007

in Montana. He put it quite eloquently in just two sentences. "Montana has the right sentiment. It seeks to give every child an opportunity to obtain an education. That is the passion that has driven public education for the past one hundred years in Montana.

It fundamentally recognizes that when we maximize our investment in every child who enters the school house door it will come back to us many times more and in ways we cannot even imagine.

It is why Montana students consistently perform among the top students in the country. Last May, the National Assessment of Educational Progress released the results of the 2006 national science tests. These "NAEP Tests" are known as the national "gold standard" for academic achievement.

Both Montana 4th and 8th grade students scored within just 1 point of the top state science scores in the country.

Our 8th grade science scores were just one point behind top ranked North Dakota, ranking Montana second in the nation. Our 4th grade students were one point behind top ranking New Hampshire.

Our Montana schools do a significantly better job in closing the academic "achievement gap" for our low income students. Nationally there is a 27 point "achievement gap" for science scores between 4th grade high and low income students. In Montana this achievement gap is only 16 points. The same pattern holds true for 8th grade Montana low income students.

These results didn't happen in a vacuum. Montana students do well in science because of the quality of science education provided by Montana's teachers. At both the state and national level, officials across the country are calling for a renewed emphasis on science and math teaching.

I applaud both Governor Schweitzer and First Lady Nancy Schweitzer for their special efforts to make science both fun and interesting for Montana kids. Thank you, Nancy, and please thank the Governor for me.

The First Family knows in order for Montana schools to remain leaders in science education, and for Montana to have a workforce ready to fill the jobs of tomorrow, we can't afford to stand still. We must constantly strive to improve student learning. I am confident that with sufficient resources, Montana students and teachers are up to the challenge.

In my first State of Education speech in 2001, I said Montana was at a "fork in the road." I noted our children have boundless potential and through the dedication of parents, teachers, community members and school trustees our schools are among the best in the nation.

But the quality of our public schools was being severely tested. The combination of stagnant state funding, declining student enrollments, and steadily rising costs were pushing schools to the breaking point.

School boards were struggling just to keep "above water." Tight budgets were forcing painful choices to be made daily, at the same time the demands on our schools were steadily increasing. Schools were asked to do a great deal more, but with fewer resources.

There were no "time outs" for schools. Everyday, kids still came to school expecting the best we could offer.

At the 2003 Legislature schools were still at that "fork in the road" and the state budget situation was grim. If that wasn't enough, it was also the first year that President Bush's No Child Left Behind Act went into effect. Schools were faced with a whole new labyrinth of federal regulations without the needed federal dollars to meet those new demands and expectations.

When the 2005 Legislature convened it was clear a choice had to be made. I am proud to say that the Legislature had

HOUSE JOURNAL
TWENTY-NINTH LEGISLATIVE DAY - FEBRUARY 9, 2007

the courage to choose the challenging but rewarding road toward a better future for our children.

At no other time in Montana history has the Legislature devoted so much time and energy on the fundamental issues and questions surrounding public education.

In the end, the Legislature, for the first time, produced a definition for providing a quality education for our children. It's a definition reflecting our best aspirations for our children and is deeply rooted in Montana "common sense."

Montanans, through their elected Legislature, decided:

A quality education must include high academic standards set forth by the Board of Public Education.

A quality education must provide assessments to make sure our children are succeeding.

It must address the needs of Montana's low-income children, at-risk youth, and special needs students -- both challenged and gifted.

It must reflect the needs of our American Indian students.

It must allow us to recruit and retain high-quality teachers.

It must allow us to provide kids with textbooks, library materials, and the technology they need to be competitive in the global economy.

It must provide safe school buildings and buses.

It must implement Indian Education for All, as defined by the Montana State Constitution.

And finally, it must be a quality education that will continue to adapt as times change.

And, with this new definition, came the down-payment: a substantial increase in state funding to make this dream a reality.

In December 2005, the Legislature met in special session for the sole purpose of addressing school funding. Once again, I am proud to say the Legislature resisted the temptation to go backwards and instead continued to strike out on the road to a better public education for Montana's kids.

Four brand-new components were added to the school funding system. Two of the new components established Montana's commitment to improve the academic performance of students-at-risk and American Indian students.

A third component provides for ongoing funding for schools to implement Indian Education for All, so all Montana students can gain a better appreciation and understanding of the contributions of American Indian cultures, history, and contemporary issues.

And the fourth component recognizes the need to recruit and retain quality educators with a quality educator payment.

And again, along with these changes in the school funding system, came substantial funding increases to begin to address these critical needs.

And so here we are today, 29 days into the 2007 Legislative Session and a good deal further down our road together. We've come a long way, but education, by its very nature, is a continuing journey. A journey that demands we meet our responsibility to educate the next generation so that they and we can have a better life.

It is essential for 145,416 students that we continue to travel down our "road to a quality education." Ninety-three percent of our students attend Montana's public schools. Montana parents rely on our public schools to educate their children -- to make sure their children do better than they did, achieve more than they achieved, and learn more than they have. We must keep moving forward down this road. To go backwards would be devastating.

A child only passes through third grade once or tenth grade once. They depend on us to make sure we provide them

HOUSE JOURNAL
TWENTY-NINTH LEGISLATIVE DAY - FEBRUARY 9, 2007

with a quality education that year and every year they attend our schools. Even as far back as 1906 the value of public education was not in question.

You and I know there is still work to be done...important work. Let's take a look at some of that work.

Full-Time Kindergarten

You've had access to a lot of information already on Full-Time Kindergarten. Simply put, the single best way we can improve student achievement in school is Full-Time Kindergarten. I'll continue to twist your arms one-by-one or one committee at a time.

Already the Senate has acted. My deep appreciation goes out to the Senate Democrats and the majority of the Senate Republicans who have now cast votes in support of Full-Time Kindergarten. Montana kids now await the action of the House. I know you won't let them down. Please join me in thanking Senator Williams and Representative Grinde for their leadership.

Quality Educators

My thanks to Representative Branae for sponsoring HB 152 which addresses the need to recruit and retain quality educators by increasing the Quality Educator component. In addition, HB 152 utilizes the inflation adjustment for all school funding components, allowing school districts some mechanism to ensure that inflation is taken into account when planning budgets for the next school year. Please help me say thanks to Representative Branae.

Indian Education for All

The 2005 Legislature, for the first time, put substantial resources into meeting our Constitutional responsibility to recognize "the distinct and unique cultural heritage of American Indians and is committed in our educational goals to the preservation of their cultural integrity."

We are well on our way to helping all Montana schools meet this responsibility. The Office of Public Instruction is making incredible progress in developing curriculum materials and providing educators the necessary training to integrate Indian Education for All into their classrooms.

The Montana Legislature is leading the nation in this effort. Montana is recognized by all states that serve American Indian students as breaking ground in Indian Education for All. The Governor of South Dakota, a Republican, has proposed Indian Education for All legislation in their current session for their students. Their State Superintendent is citing Montana as their example.

We cannot end our efforts just as they are beginning. Our kids – all of our kids – deserve better.

Meth Education

Through a partnership with Attorney General Mike McGrath and the Office of Public Instruction we have developed a Meth Prevention toolkit for schools. I applaud the Attorney General for his leadership in combating this devastating drug that has found its way into all of our Montana communities. Mike – you have my admiration and my thanks!

Teen Suicide Prevention

Teen suicide is a deep and dark wound on our Montana communities. Montana has one of the highest teen suicide rates in the country. More than 10% of our Montana high school students have attempted suicide. In a classroom of 20 students, that's 2 of your students who have attempted suicide. Representative Bill Jones has begun to address the need to focus some help for our schools in this area. Thank you, Representative Jones, for your leadership and courage to tackle this very serious issue – I applaud you!

To close my last State of Education Address, I'd like to leave you with a memory of my elementary school days. It will explain to you why I have given you an apple for each of my four education addresses. First, you must promise

HOUSE JOURNAL
TWENTY-NINTH LEGISLATIVE DAY - FEBRUARY 9, 2007

me you will not touch the apple until I have left the House Chamber.

When I was in elementary school and our teachers had a birthday or won a special award, we really didn't have the money to buy them a present. So we would throw them a "fruit roll." We'd pick a fruit roll captain and we'd all bring a round fruit to school – bananas and pears didn't work and oranges were hard to get, but apples were plentiful. We would hide the apples in our desks when we got to school.

At some time during the day when the teacher was writing on the chalkboard and had his/her back to us, the fruit roll captain would yell "fruit roll" and we would all roll our apples down the aisles toward the teacher. Since the floors in our school were all wooden everyone in the school would hear the apples rolling and would know that some teacher got a fruit roll. All the teachers would run to our classroom and help the teacher pick up the fruit to take home to share with their family. It's one of my fondest memories of elementary school. Over the years I've come to realize how unique this was as I've not heard of many people talk about having fruit rolls in their elementary schools.

Several years into my teaching career I shared this story with a few of my students one fall day when the lunchroom served apples. Several months went by and in May during Teachers' Appreciation week I had fourth graders in my library. I turned around to pick up materials for what was to be a really brilliant lesson on the Dewey Decimal System, and I heard one of the students yell "fruit roll!" Rolling up the aisle came 20 apples. I'm not sure I ever got around to teaching that brilliant lesson on the Dewey Decimal System that day.

That evening I called up my third grade teacher, Mrs. Bradds, who I hadn't seen since I was a kid. She answered the phone and I said, "Mrs. Bradds, it's Linda Harman." That was my maiden name, same name you'll remember as the Montana State Superintendent in 1906. She answered, "Why hello, Linda." Just like I'd seen her yesterday. I told her I was now a teacher. She sounded pleased and I thought hid her shock very well. I then said, "Mrs. Bradds, my students threw me a fruit roll today." Without missing a beat, she said, "Well, of course they did, Linda."

Like it happens every day!

So you see, for me an apple is not just the symbol for teachers. An apple reminds me of our students and the promise a quality education holds for their future. For me an apple is the symbol of public education and all that it has given me during my life.

Each of my 145,416 students must have a quality education to guide them through the rest of their lives. My students are depending on you to keep moving education down the path that will guarantee a quality education for them. Montana cannot build a first-class economy with a second-class school system. Continuing down the road to a quality education is not just about my kids, it's about all of us --- it's about the future of Montana.

Thank you for your time today!

President Cooney thanked Superintendent McCullough for her State of the Education speech.

The committee escorted Superintendent McCullough and guests from the chamber.

Senator Majority Leader Williams moved the joint session be adjourned. Motion carried.

Democratic Caucus Leader Villa announced the Democrats would caucus. Majority Leader Lange announced the Republicans would stand at ease.

~~—(4) The commission shall establish just and reasonable rates through established ratemaking principles for public utility default supply, distribution, and transmission services and shall regulate these services. The commission may approve rates and charges for those services based on alternative forms of ratemaking such as performance-based ratemaking, on a demonstration by the public utility that the alternative method complies with this chapter, and on the public utility's transition plan.~~

~~—(5) The commission shall certify that a cooperative utility has adopted a transition plan that complies with this chapter. A cooperative utility's transition plan is considered certified 60 days after the cooperative utility files for certification.~~

"17-7-138. Operating budget. (1) (a) Expenditures by a state agency must be made in substantial compliance with the budget approved by the legislature. Substantial compliance may be determined by conformity to the conditions contained in the general appropriations act and to legislative intent as established in the narrative accompanying the general appropriations act. An explanation of any significant change in agency or program scope must be submitted on a regular basis to the interim committee that has program evaluation and monitoring functions for the agency pursuant to Title 5, chapter 5, part 2. An explanation of any significant change in agency or program scope, objectives, activities, or expenditures must be submitted to the legislative fiscal analyst for review and comment by the legislative finance committee prior to any implementation of the change. A significant change may not conflict with a condition contained in the general appropriations act. If the approving authority certifies that a change is time-sensitive, the approving authority may approve the change prior to the next regularly scheduled meeting of the legislative finance committee. The approving authority shall submit all proposed time-sensitive changes to the legislative fiscal analyst prior to approval. If the legislative fiscal analyst determines that notification of the legislative finance committee is warranted, the legislative fiscal analyst shall immediately notify as many members as possible of the proposed change and communicate any concerns expressed to the approving authority. The approving authority shall present a report fully explaining the reasons for the action to the next meeting of the legislative finance committee. Except as provided in subsection (2), the expenditure of money appropriated in the general appropriations act is contingent upon approval of an operating budget by August 1 of each fiscal year. An approved original operating budget must comply with state law and conditions contained in the general appropriations act.

(b) For the purposes of this subsection (1), an agency or program is considered to have a significant change in its scope, objectives, activities, or expenditures if:

(i) the operating budget change exceeds \$1 million; or

(ii) the operating budget change exceeds 25% of a budget category and the change is greater than \$25,000.

If there have been other changes to the budget category in the current fiscal year, all the changes, including the change under consideration, must be used in determining the 25% and \$25,000 threshold.

(2) The expenditure of money appropriated in the general appropriations act to the board of regents, on behalf of the university system units, as defined in 17-7-102, is contingent upon approval of a comprehensive operating budget by October 1 of each fiscal year. The operating budget must contain detailed revenue and expenditures and anticipated fund balances of current funds, loan funds, endowment funds, and plant funds. After the board of regents approves operating budgets, transfers between units may be made only with the approval of the board of regents. Transfers and related justification must be submitted to the office of budget and program planning and to the legislative fiscal analyst.

(3) The operating budget for money appropriated by the general appropriations act must be separate from the operating budget for money appropriated by another law ~~except a law appropriating money for the state pay plan or any portion of the state pay plan~~. The legislature may restrict the use of funds appropriated for personal services to allow use only for the purpose of the appropriation. Each operating budget must include expenditures for each agency program, detailed at least by first-level categories as provided in 17-1-102(3). Each agency shall record its

operating budget for all funds, other than higher education funds, and any approved changes on the statewide budget and accounting state financial system. Documents implementing approved changes must be signed. The operating budget for higher education funds must be recorded on the university financial system, with separate accounting categories for each source or use of state government funds. State sources and university sources of funds may be combined for the general operating portion of the current unrestricted funds."

Insert: "Section 22. Section 17-7-139, MCA, is amended to read:

"17-7-139. Program transfers. (1) (a) Unless prohibited by law or a condition contained in the general appropriations act, the approving authority may approve agency requests to transfer appropriations between programs within each fund type within each fiscal year. ~~The legislature may restrict the use of funds~~ Funds appropriated for personal services ~~to allow use may be used~~ only for the purpose of the appropriation, and funds not appropriated for personal services may not be used for personal services.

(b) An explanation of any significant transfer must be submitted on a regular basis to the interim committee that has program evaluation and monitoring functions for the agency pursuant to Title 5, chapter 5, part 2. An explanation of any transfer that involves a significant change in agency or program scope, objectives, activities, or expenditures must be submitted to the legislative fiscal analyst for review and comment by the legislative finance committee prior to any implementation of the change. If the approving authority certifies that a request for a transfer representing a significant change in agency or program scope, objectives, activities, or expenditures is time-sensitive, the approving authority may approve the transfer prior to the next regularly scheduled meeting of the legislative finance committee. The approving authority shall submit all proposed time-sensitive changes to the legislative fiscal analyst prior to approval. If the legislative fiscal analyst determines that notification of the legislative finance committee is warranted, the legislative fiscal analyst shall immediately notify as many members as possible of the proposed change and communicate any concerns expressed to the approving authority. The approving authority shall present a report fully explaining the reasons for the action to the next meeting of the legislative finance committee. All program transfers must be completed within the same fund from which the transfer originated. A request for a transfer accompanied by a justification explaining the reason for the transfer must be submitted by the requesting agency to the approving authority and the office of budget and program planning. Upon approval of the transfer in writing, the approving authority shall inform the legislative fiscal analyst of the approved transfer and the justification for the transfer.

(c) If money appropriated for a fiscal year is transferred to another fiscal year, the money may not be retransferred, except that money remaining from projected costs for spring fires estimated in the last quarter of the first year of a biennium may be retransferred.

(2) For the purposes of subsection (1)(b), an agency or program is considered to have a significant change in its scope, objectives, activities, or expenditures if:

(a) the budget transfer exceeds \$1 million; or

(b) the budget transfer exceeds 25% of a program's total operating plan and the transfer is greater than \$25,000. If there have been other transfers to or from the program in the current fiscal year, all the transfers, including the transfer under consideration, must be used in determining the 25% and \$25,000 threshold."

HOUSE JOURNAL
THIRTY-NINTH LEGISLATIVE DAY - FEBRUARY 21, 2007

The Invocation was given by Father Jerry Lowney, Senate Chaplain. Pledge of Allegiance to the Flag.

Senate President Cooney introduced Senator Baucus to the joint session. Senator Baucus gave the following speech:

**Remarks to the 60th Montana Legislative Assembly
February 21, 2007**

Good afternoon. Mr. Speaker. Mr. President. Members of the House and Senate. Visitors joining us in the gallery. Distinguished guests: Lt. Governor Bohlinger, State Auditor John Morrison, Superintendent Linda McCullough, Secretary of State Brad Johnson, Attorney General Mike McGrath, Members of the Supreme Court.

Working together

Thanks for inviting me to speak today. I appreciate you taking time out of your busy calendar. I know you have a lot of work getting ready for transmittal. As author Sam Ewing once said, "Hard work spotlights the character of people: some turn up their sleeves, some turn up their noses, and some don't turn up at all."

Montana's history has been the story of courageous, gutsy men and women who forged ahead. Men and women with calloused hands, sturdy backs, and fortitude passed down from generation to generation. Whether it's the miners who built the biggest copper mine in the country. Janette Rankin -- the first woman to get elected to the US Congress. Railroaders who built lines across our state. Farmers and ranchers. Or even Evel Knievel, who wanted to make the longest jump in the world.

Our values were chiseled out of the bedrock of Montana. We learned them from our parents, who learned them from their parents. Values of hard work, honesty, common sense, faith, and community. We don't shy away from challenges or hard work. We come from good, Montana stock. And we're proud of it.

Every time I come back to the legislature, I remember hard work. Good, solid hard work. Working breakfasts. Packed committee hearings.

I represented Missoula. I sat next to Doc Norman. I remember the heated debates. Nobody pulled punches. I remember the long nights. The early meetings. The weekends. I remember the debates. I remember trying to fit it all into 90 days. I'm glad to see that Representative Jopek is still making good use of my desk! Thanks, Mike. Let's give Mike a big hand!

I was here in 1973. I don't think Kendall Van Dyk was even born yet! Kendall's doing a great job.

That was also back when my friend Hal Harper was serving in the House --- as a Republican! I remember the people I worked with. People I admired. Giants like Francis Bardanouve and Verner Berterlson. We had our challenges back then just as you do today.

But it was in this Chamber that I learned the value of working together. It was here -- during the 43rd Legislative Assembly -- where I learned that partisanship doesn't serve the noble purpose of legislating.

I learned that digging in your heels and fighting with each other doesn't help make Montanans' lives any better. Remember, nothing of consequence ever happens unless people work together. A partisan victory never lasts...a compromise is more durable.

When I was here, Democrats held a slight majority in both chambers. But we had to work together. Now, 30 years later, I'm still working together to get things done.

When I think about what it means to work together, I look no further than Mike Mansfield. Our Mike. My friend

HOUSE JOURNAL
THIRTY-NINTH LEGISLATIVE DAY - FEBRUARY 21, 2007

and mentor. He was the man who served with presidents and foreign dignitaries. He led the country as the longest serving Senate Majority Leader -- during some tumultuous times, I might add.

But Mike never forgot his roots or the people he represented. He said to me once, "Max, we represent all of Montana -- Democrats and Republicans. We represent everybody." He made a point of telling me that. And it stuck with me.

I'm reminded of that conversation by an old northwest Montana newspaper story.

They characterized Mike during his first year in the Senate this way:

"His philosophy (the newspaper wrote) is that he is a Democrat, yes, but first he is a U.S. Senator. He is sometimes liberal, sometimes conservative. But uppermost in his mind is this thought: What is best for the people? Mike Mansfield is an individualist (the newspaper wrote) but he will work with anyone and everyone when he feels the net result will produce something beneficial to the nation and Montana." End quote.

Let's work hard, like Montanans do. But let's also look to Mike's example and work together.

IRAQ

Before I continue I want to take a moment to recognize the contribution Montana has made to the war in Iraq and Afghanistan. We may not all agree on the best course of action in Iraq. But we all agree on one thing: it's time for the government of Iraq to stand on its own. And it's time for our Montana men and women to come home as soon as possible.

Seventeen Montanans have died over there. They were sons. And fathers. And brothers. And husbands. They served their country admirably.

Please stand up. Stand with me and recognize the Montanans who have paid the ultimate sacrifice.

CHIP

The war in Iraq clearly is one of the most pressing issues facing our country. But the main thing that I want to talk to you about today is on the domestic front. It's health care.

HOUSE JOURNAL
THIRTY-NINTH LEGISLATIVE DAY - FEBRUARY 21, 2007

Everywhere I go – from the café in Miles City to the lumber mill in Western Montana -- I hear the same thing. It's health care. It's the high cost of health care. I could be talking about the Farm Bill on the Hi-Line and health care comes up.

And it's not just in Montana. I hear it all over the country.

I hear stories from people who are barely squeaking by – month to month – because so much of their income goes to health care. And it's not just the single mother working two jobs. It's small business owners. And teachers. Farmers. And the elderly. It's everybody. We clearly have to do something.

We won't fix our nation's health care system overnight. It's just too big of a bite to take at once. But we *can* begin to chip away at the problem piece by piece.

Ultimately, this nation is going to have to have universal health care.

That is health care for everyone. We're the only industrialized nation without universal health care. South Africa has it. We don't. It's not right.

As we begin to tackle this problem there's no better place to start than with our kids.

As parents, we can usually make our kids feel better with some ice cream, a few good movies, and a big hug. Yet, sometimes Disney and Ben & Jerry's aren't enough to help when they're sick. As a parent, I know the heartache and worry that goes along with seeing your child sick and hurting.

I applaud Governor Schweitzer for his strong leadership and vision on health care.

I applaud the legislature -- you all -- and the people of Montana for making tough choices and sacrifices.

We thank Auditor Morrison and my friend Senator Jon Tester for the Insure Montana program. It has helped put more affordable health insurance within reach for hundreds of Montana families, small business owners and their workers. And it's only just getting started.

I also applaud Senator John Cobb and Representative Edith Clark for their vision on health care. That's the kind of working together we need.

But the most important thing that we can do – right away -- is help our kids. That's why we must renew and expand the Children's Health Insurance Program, so that more kids can get coverage.

Why is CHIP so important? Think for a minute about people who can barely afford to heat their homes or feed their kids – let alone pay for health care. That's what CHIP does for them. It makes sure their kids – at least their kids – get coverage.

I'm reminded about a young woman in Helena. Single mom. Her son was diagnosed with epilepsy -- shortly after he lost his private insurance coverage. Other plans wouldn't cover the expensive drugs he needed.

She learned about CHIP. Got him enrolled. Now he's getting the medical care and drugs he needs. I don't know what they would have done without CHIP. I honestly don't know what they would have done.

Folks, it's a real program serving real people who need real help. But despite our best efforts, 37,000 Montana kids don't have any health insurance at all. That means 37,000 Montana families are teetering on the edge. One bike accident. A fall down the stairs. An injury on the basketball court could drive them into bankruptcy. Or

HOUSE JOURNAL
THIRTY-NINTH LEGISLATIVE DAY - FEBRUARY 21, 2007

worse. That's just wrong.

Those are decisions no Montanan should have to face. What's more, these numbers are rising. Over the last 5 years, the number of uninsured Montana kids has spiked 10 percent. And most of that jump came from young kids – 5 years old or younger.

Remember that the first 5 years of a child's life establish a blueprint for that child's future. Missing the yearly doctor's appointment or going without shots can dramatically affect the building blocks to a child's development.

CHIP also makes sense as an investment. Studies show that kids who are healthy growing up do better in life. It's really pretty simple:

1. A child who's healthy can go to school.
2. A child who's healthy in school is more likely to do well.
3. A child who does well in school is more likely to get a job.
4. And people with jobs are less likely to end up in jail or on public assistance.

Those shots, that physical, treating that little boy's epilepsy will pay dividends to society. CHIP is a good health care program, yes, but it's also a solid investment.

A Little History

Here's a little history for you. I was very proud to help write the CHIP program in 1997. I remember working long hours with both Republicans and Democrats. I remember thinking to myself that this is really neat. It's something very special. Important. I can say passing CHIP was one of my proudest accomplishments in Congress – ever. Since then, CHIP has become the most successful children's health program in history. It now provides coverage to more than 6 million American kids.

After the President signed the CHIP bill into law in August 1997, it was time for the states to decide whether or not to join the program.

That's when I came here to Helena personally to lobby for it. I made the pitch. And you did the right thing and passed it. That was 10 years ago. Since then, nearly 40,000 Montana kids have been helped by CHIP.

1. 40,000 kids with names like Beth, Johnny, Paul, Cindy, and Ben.
2. 40,000 kids who got shots and prescriptions and surgeries.
3. 40,000 kids – some of whom might be the next State Senator from Eureka or Representative from Laurel.

It's been a huge success in Montana. Now the CHIP program needs to be renewed before it expires on September 30th of this year.

And, as you may know, I recently became Chairman of the Senate Finance Committee, which is a really big deal for Montana. We have jurisdiction over most health care programs, all taxes and revenue, Social Security, and international trade.

We also have jurisdiction over CHIP.

As Chairman, I get to set the agenda. And I've made renewing and expanding CHIP my top health care priority for this year. It's Number 1. We will pass a CHIP bill THIS year. You can take it to the bank.

Let's Make A Deal

And that's why I'm back here today. Because I want to make a deal with you. And here it is: I'll expand CHIP in Washington, if you expand CHIP in Helena. That's the deal. I'll do my part in Washington. You do your part

HOUSE JOURNAL
THIRTY-NINTH LEGISLATIVE DAY - FEBRUARY 21, 2007

here in Helena.

As for my part, I'll use my chairmanship to get Montana more federal dollars to run the program and cover more kids. I'm asking you to do your part and expand eligibility. I know Montana has been working to expand Medicaid and increase the number of children eligible for CHIP. Thank all of you who've been involved in that effort. It's very important. Unfortunately, we still rank second-to-last in the nation in CHIP eligibility. We're at 150 percent of the poverty level.

We are second in the nation only to North Dakota. That's not like us. We're Montanans.

Finishing 49th in a 50-state marathon is not your way, not my way, not the Montana way. It's contrary to our can-do Montana spirit and the values our parents taught us. Did you know that more than half the states now provide CHIP to children up to 200 percent of the poverty level? Did you know that nearly a third of states cover children at even higher eligibility rates?

Consider this. At 200 percent of the poverty level, a family of three is making about \$34,000 a year. But family health insurance can cost \$12,000 a year or more. That's nearly a third of a family's income -- before taxes. It's foolhardy to expect them to afford *that* much for health care.

Here in the Senate, Senator Weinberg's bill raises Montana's eligibility level. And I know Representative Caferro has been working on CHIP in the House. I commend both of them for their hard work.

I'm also proud to be one of the first people to congratulate the Senate for expanding CHIP. Just moments ago they passed Senator Weinberg's bill on 3rd reading.

Now the House will have the chance to take up CHIP. I urge you to do that. Do it as soon as you can.

So that's my deal. I'll provide dollars in Washington, if you expand CHIP here at home.

Look. I served here, so I know you don't like to be told what to do. That's not what I'm doing. I'm asking you. I'm asking you to make a deal with me.

Call it a 'fair deal.' Call it a 'square deal.' Call it whatever you like. But let's expand CHIP so Montana parents don't have to lay awake at night worrying about their kids.

Let's rise above partisanship. Let's heed the example of Mike Mansfield and do what's right.

I think Governor Schweitzer said it best. He said, quote: "We're not blue, we're not red, we're not purple. We're Montanans."

And remember what the Gospel of Luke tells us: "To whom much has been given, much is expected."

We've been given an awful lot. Now it's time to lead. That's what our employers want. We're just the employees. We're just the hired hands. It's not about who gets the credit or the blame. It's not about the headlines. It's about representing our 900,000 bosses. It's time to reach across the partisan divide, work together, honor our Montana heritage, and carry the mantle of a bright future for our kids.

Do that, and Montana will thank you.

Following: line 8

Insert: "Section 3. Section 42-7-105, MCA, is amended to read:

"42-7-105. Prohibited activities -- violations -- penalties. (1) A person, other than the department or a licensed child-placing agency, may not:

(a) advertise in any public medium that the person:

(i) knows of a child who is available for adoption; or

(ii) is willing to accept a child for adoption or knows of prospective adoptive parents for a child; or

(b) engage in placement activities as defined in 52-8-101.

(2) An individual other than an extended family member or stepparent of a child may not obtain legal or physical custody of a child for purposes of adoption unless the individual has a favorable preplacement evaluation or a court-ordered waiver of the evaluation.

(3) A person who, as a condition for placement, relinquishment, or consent to the adoption of a child, knowingly offers, gives, agrees to give, solicits, accepts, or agrees to accept from another person, either directly or indirectly, anything other than the fees allowed under 42-7-101 commits the offense of paying or charging excessive adoption process fees.

(4) It is illegal to require repayment or reimbursement of anything provided to a birth parent under 42-7-101. All payments by the adoptive parent made on behalf of a birth parent pursuant to this section are considered a gift to the birth parent.

(5) Nothing in this section prohibits a licensed child-placing agency from maintaining a separate program for the assistance of a biological parent who is in need of postadoptive counseling and support as provided in [section 1]. Services must be provided based on need and may not be contingent on a placement being made privately, by the department, or by a licensed child-placing agency. A postadoptive counseling and support program may not be used to induce a biological parent to place a child for adoption.

~~(5)~~(6) A person convicted of the offense of paying or charging excessive adoption process fees, attempting to recover expenses incurred from an adoption process, or otherwise violating this title may be fined an amount not to exceed \$10,000 in an action brought by the appropriate city or county attorney. The court may also enjoin from further violations any person who violates this title.""

MESSAGES FROM THE GOVERNOR

February 27, 2007

The Honorable Scott Sales
Speaker of the House
State Capitol
Helena, Montana 59620

Dear Representative Sales:

Please be informed that I have signed **House Bill 23** sponsored by Representative Hiner and **House Bill 470** sponsored by Representative Olson on February 27, 2007.

Sincerely,

BRIAN SCHWEITZER
Governor

February 26, 2007

The Honorable Scott Sales
Speaker of the House
State Capitol
Helena, MT 59620

The Honorable Mike Cooney
President of the Senate
State Capitol
Helena, MT 59620

Dear Speaker Sales and President Cooney:

In accordance with the power vested in me as Governor by the Constitution and the laws of the State of Montana, I hereby return with amendments House Bill 333, "AN ACT PROVIDING FOR AND REGULATING PARIMUTUEL WAGERING ON MATCH BRONC RIDES AND WILD HORSE RIDES; AMENDING SECTIONS 23-4-101, 23-4-104, 23-4-105, AND 23-4-202, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE," for the following reasons.

House Bill 333 authorizes parimutuel wagering on match bronc rides and wild horse rides and provides for their regulation by the board of horse-racing. Section 4 of the bill amends Mont. Code Ann. § 23-4-202, to except participants in a match bronc ride or a wild horse ride from the *penalty* provisions of the law. However, as written, the bill neglects to exempt those participants from the *licensure* requirements of the law.

My proposed amendment, therefore, amends Mont. Code Ann. § 23-4-201 to expressly except from those who must

HOUSE JOURNAL
FORTY-FOURTH LEGISLATIVE DAY - FEBRUARY 27, 2007

be licensed and pay annual fees participants in a match bronc ride or wild horse ride. This proposed amendment provides for clarity and for consistency with the remainder of the bill, so that both the licensure statute and the penalty statute will except participants in match bronc rides or wild horse rides from licensure requirements. Although the participants will be excepted from the licensure requirements, please take note that the person holding the race meet will be required to be licensed.

I have discussed my proposed amendment with the sponsor of the bill, Representative McChesney, who supports the proposed amendment as consistent with his intent. The proposed amendment is attached to this letter.

Sincerely,

BRIAN SCHWEITZER
GOVERNOR
